### WOOD STAIN

Pine      Maple      Cherry

A pigmented stain that will impart a lovely, warm color to new or old wood. Produces a uniform finish on both hard and soft woods. Colors are permanent, non-bleeding. Suitable for interior or exterior work. Available in Colonial Pine (deep color), Old Pine (light color), or Antique Maple. (please specify). Wt. 2 lbs. .... Pint \$1.50  
Colonial Red Cherry. .... Pint \$1.95

Note: One pint will cover about 60-70 square feet.

### WROUGHT IRON FINISH

Made especially for use on metal — but it's excellent on wood, too. Dries to a dull flat finish that's perfect on Early American pieces. Black only. Wt. 2 lbs. Pint \$1.50

# Old Guilford Forge HARDWARE

HAND WROUGHT — AS OUR FOREFATHERS MADE IT

Nothing quite matches the sturdy charm of Early American hardware. The fact that so much original hardware is still in use on countless 17th and 18th century homes attests to its enduring beauty and utility.

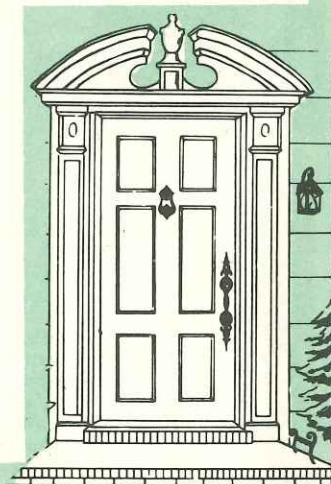

Skilled Old Guilford Forge craftsmen have copied a number of these early hand-forged masterpieces. Through careful hand finishing, these reproductions become truly authentic, not only in design, but in finish. They have the appearance and "feel" of the priceless originals. When you purchase Old Guilford Forge hardware, you may be sure you have selected the finest reproductions available anywhere.

Our hardware is fully described on the following pages. For your convenience, we will be glad to wrap and label the hardware for each of your doors separately — just send us your instructions.

**YOU'RE RESTORING AN EARLY HOUSE?** — Old Guilford Forge hardware is a "find"! It's in perfect keeping with Colonial architecture — blends with the original as if it were contemporary with it.

**YOU'RE BUILDING A NEW HOME?** — Achieve a warm, lived-in look from the start with Old Guilford Forge Hardware. It belongs with traditional architecture — and its simplicity of design is stunning with contemporary.

**YOU'RE ADDING A PANELLED ROOM?** Old Guilford Forge Hardware is a natural. The jet black finish, the quaint early designs are most effective on pine.

# EARLY HAND WROUGHT

## The NANTUCKET Latches

Two massive outdoor latches which are truly "conversation pieces". Beautifully hand wrought in the traditional manner, yet so designed that a modern lock set can be installed without detracting from the appearance. Black finish. Parkerized (rust-resistant). Matching screws furnished. Wt. 3 lbs.

#301 SWORDFISH design. From an original on a circa. 1795 church in East Haddam, Conn. 3 3/4" wide, 24" long.

#302 HEART design. From an original on an 18th century tavern in Hadlyme, Conn. 3 1/2" wide, 19" long.

### Back Latch Assembly

Latch bar, guide and strike regularly furnished with Nantucket Latches in Group I.

At right: Side view of strike showing wrought brace.

## MATCHING CYLINDER LOCKS

For those who wish a modern lock to use with front door latches. May be keyed alike for two or more doors. (Specify)

### For Use with GROUP I

#### CYLINDER MORTISE DEAD BOLT

#4821 — This lock has dead bolt only and **MUST** be worked either with key on outside or turn knob inside. Does not lock automatically when door shuts. Does permit regular back latch assembly on inside of door. Black finish. Complete with turn knob and keys. Wt. 3 lbs. .... \$13.75

### For Use with GROUP II

#### STANDARD FRONT DOOR LOCK #6761

— Sargent mortise front door lock and night latch. *Cannot* be used with back latch assembly. Can be set with button in face, so when door is shut, latch cannot be operated from outside without key. Dead bolt operates with key outside, turn knob inside. Latch bolt always operates from door knob inside. Black finished door knob, 2" diam., with matching escutcheon and spindle included with lock, along with turn knob and keys. Wt. 5 lbs. .... Complete \$21.50

## NORFOLK LATCH

### For Inside Use Only

This type of latch appeared in the late 18th century and was common until about 1840. Cast handle on hand wrought back plate. Same back latch assembly as furnished for the Suffolk latches. 7 1/2" long. Wt. 2 lbs. .... \$9.50

## BEFORE ORDERING LATCHES

To visualize how your door hardware will look, stand in front of a door. If the door opens **AWAY** from you, the grip design and thumb piece will be on your side of the door. The HL or H hinges and the back latch assembly will be on the other side of the door. If the door opens **TOWARDS** you, the back latch assembly and hinges will be on your side of the door and the grip and thumb pad on the other side. This is because the latch bar in the regular assembly extends beyond the door to engage the strike on the door casing, so the door can only swing from this side.

On closet or cellar stair doors, which open toward you, or where the decorative effect of the grip would be lost on the inside, you may use a Closet-type Back Latch (described at right) which allows the grip to be located on the side of the door that opens toward you along with the hinges.

# THUMB LATCHES

## The SUFFOLK Latches

For Indoor or Outdoor Use

Sturdy latches in authentic designs copied from prized 18th century originals. Parkerized (rust-resistant). Large latches are available with or without back latch assembly \* — small latches complete with latch assembly. Wt. 2 lbs. each.

### Large Latches for Inside or Outside:

## CYLINDER LOCK COLLARS

### To Match Any Latch Above

These hand wrought collars fit standard type cylinders and can be used with either lock shown on opposite page. Collar number is same as latch number with "C" added. (as 61C etc.) Wt. 1/2 lb. .... ea. \$1.95

## Regular BACK LATCH ASSEMBLY

Consists of latch bar, guide and flush or mortise strike. Strike (b) is a mortise strike to be used for offset door jambs. (Specify strike) Regularly furnished with Group I latches at no extra cost.

If Purchased Separately (Wt. 1 lb.) \$3.95

## PLEASE READ CAREFULLY

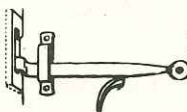

DOORS MUST HAVE PLAIN TRIM — MOUNTED FLUSH! Be sure your architect or builder understands this or he will have trouble mounting latches or hinges.

\*Latches are available in the following two types of installation. Check carefully for the group that meets your needs.

\***GROUP I** — complete with back latch assembly (latch bar, guide and strike) Long thumb piece. Can be used alone or with #4821 Lock described on opposite page.

\***GROUP II** — Design, grip and short thumb piece only. To be used with #6761 Front Door Lock described on opposite page. Door knob required on inside of door.

## Closet-Type BACK LATCH ASSEMBLY

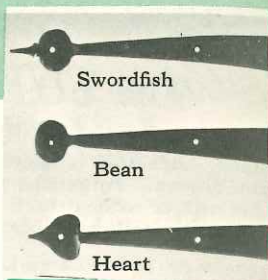

For doors where grip is on the side of door which opens towards you. Has special offset latch bar and reverse bevel strike which is mortised into the door stop allowing the latch bar, when lifted, to come through the casing when the door is pulled toward you. If ordered with latch, replacing regular assembly, no extra cost.

If Purchased separately (Wt. 1 lb.) \$3.95

ALL AUTHENTIC COPIES OF  
EARLY CANDLE FIXTURES  
TO USE WITH CANDLES  
OR ELECTRICITY

Through Charles F. Montgomery, one of the foremost authorities on early lighting, we obtained the fine chandelier and sconces shown here. Today these originals are dulled with age. However, we have reproduced them exactly as you would have purchased them 200 years ago — in bright, shining tin to give maximum reflection, to recreate the full sparkling beauty they had when new. We believe true connoisseurs will prefer them in their authentic bright finish.

ELECTRIFIED FIXTURES have candelabra base sockets, hand molded in candle wax to give the truest possible effect of real candles. "Nalco" Candleflame bulbs give a fine semblance of candlelight in these fixtures. Bulbs furnished only on request at 75¢ each.

# HOW TO ORDER AND COMPUTE POSTAGE

## TO MAKE OUT YOUR ORDER:

Please use our order blank if available.

In any event, **PRINT YOUR NAME & ADDRESS PLAINLY.**

List each item separately, showing:

Quantity desired, Catalog number, Description of item, Total price, Shipping weight on items to be sent by parcel post.

Add total cost of merchandise.

Add shipping weights on parcel post items. Determine your approximate zone from map below, then determine postal charges from chart at right.

Add postal charges to merchandise cost, and enclose check or money order for total amount, made payable to Old Guilford Forge, Inc.

If you wish order sent to an address other than your own, please specify **PLAINLY**. If this is a gift, please enclose gift card.

## FOR FASTER DELIVERY

If you are in a hurry for your order and are afraid parcel post may be too slow, for a few cents more, you can specify **SPECIAL HANDLING** (a Postal service). **SPECIAL HANDLING** means your package is handled as fast as first class mail between post offices. After it arrives in your city, it gets regular delivery — but between towns this service often saves several days.

Special Handling Rates: Up to 2 lbs. — 25¢  
2 lbs. to 10 lbs. — 35¢  
Over 10 lbs. — 50¢

## IMPORTANT NOTICE

Parcel Post regulations restrict the size of packages and the weight allowed to 20 lbs. between first class post offices. If your order comes to more than 20 lbs., figure it as two or more packages. Single items weighing more than 20 lbs., or that are too bulky for parcel post, must go Express Collect, and are usually so marked in the catalog. Where necessary, we will make two packages if we can, or we will ship Express Collect and refund the money sent for postage. If you live on a rural route, your packages can weigh up to 70 lbs.

## RETURNS

If you have occasion to return anything to us, be sure to write a letter explaining fully the reason for the return, attach a 4c stamp to the envelope and affix the letter to the *outside* of the package. This will assure that your shipment receives prompt attention.

## EASY PAYMENT PLAN

Now you may buy from Old Guilford Forge and pay over a ten month period, —if your order totals \$75.00 or more.

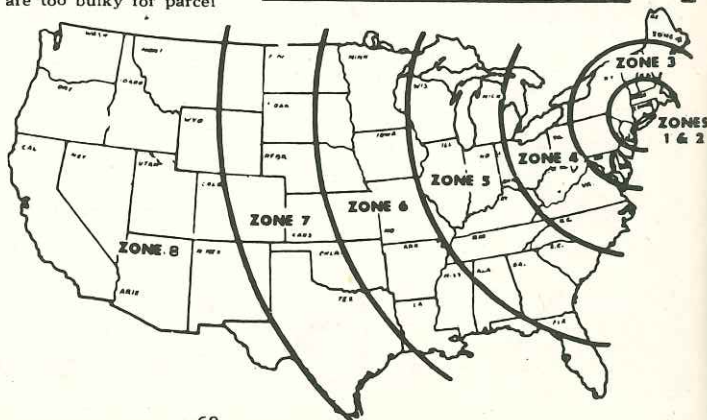

**FIRST:** Send for our Credit Application Blank.

**SECOND:** Fill out application blank and return it with your order together with a check for at least 1/3 of the total amount of the order. (Make sure your order totals \$75 or more.)

**THIRD:** Subtract amount paid from the total and add 10% of the remainder as a handling charge. This is the unpaid balance, payable in ten equal installments beginning one month after date merchandise is shipped.

### EXAMPLE:

|                              |          |
